Description

The Tecnam P2010 MKII has redefined the high-wing single-engine market, combining the refinement and IFR capability of a professional aircraft with the simplicity and economy that modern pilots demand. This specific aircraft is a 2020 model, impeccably maintained and fully equipped for instrument operations.

Whether you are looking to upgrade a training fleet with a cutting-edge glass cockpit platform or seeking a capable and comfortable cross-country traveler powered by Lycoming's proven IO-390, this P2010 stands out as the most advanced and cost-effective high-wing single in its class.

S/N: 120

Registration: F-HEDU
